

Announcement regarding Scholarships

The scholarships were offered based on the interview results published on the website.

The candidates were ranked in each programme and depending on the number of available local and international scholarships, the top ranked applicants were offered scholarships including gender consideration.

For National applicants

Programmes	Minimum marks for Females	Minimum marks for Males
Wireless Intelligent Sensor Networking	81.17%	83.73%
Embedded Computing systems	85.67%	86.33%

For **international applicants**, the minimum mark was **78.33%** and **77.17%** for Embedded Computing systems and for Wireless Intelligent Sensor Networking programme respectively.

Thank you
